

## Vehicle diagnostic report

Shop Name: Russell Emptage  
Address: 92230  
Telephone:  
Email :  
Fax:

License #: hk59lce  
Make: VOLVO  
Model: V50  
Year: 2010  
VIN: YV1MW7541A2540403  
Mileage: 194956 (km)  
Vehicle Software Version: V43.30  
Diagnostic Application Version: V3.08.001  
Test Time: 2017-07-24 14:07:06  
Tester: russell emptage  
Diagnostic path: Automatically Search > Health Report > DTC Report

### Diagnostic Result

Fault ( 9 )		
SRS(Supplemental Inflatable Restraint System)	( 1 )	Abnormal
	SRS-0005 Power supply from the battery. Voltage too low	
DIESEL ENG(Fuel system/Combined system)	( 3 )	Abnormal
	ECM-0625 Generator. Signal too low ECM-C326 Communication control module. Faulty signal ECM-1935 Stop lamp switch. Faulty signal	
CEM(Central electrical module)	( 6 )	Abnormal
	CEM-6C42 Start control module (SCU). Signal missing CEM-DE29 Communication with the climate control module (CCM). Signal missing CEM-8A12 Low beam left. Faulty signal CEM-3F93 Accelerator pedal (AP) position sensor. Signal too low CEM-8A09 Low beam right. Faulty signal CEM-8F22 Wiper motor module (WMM). Voltage too low	
DIM(Driver information module)	( 1 )	Abnormal
	DIM-0001 Mileage. Manipulated.	

PDM(Passenger door module)	( 1 )	Abnormal
	PDM-DD10 Communication with control module No communication	
DDM(Driver door module)	( 1 )	Abnormal
	DDM-6D0D Control module. Internal fault	
CCM(Climate control module)	( 9 )	Abnormal
	CCM-0020 Function button. Activated too long CCM-0071 Damper motor. Faulty position CCM-DD10 Air quality sensor (AQS). No communication CCM-DD33 Damper motor defroster. No communication CCM-DD32 Right temperature damper motor. No communication CCM-DD16 Damper motor air distribution. No communication CCM-DD15 Left temperature damper motor. No communication CCM-DD14 Recirculation damper motor. No communication CCM-0009 Blower fan motor passenger compartment temperature sensor. Blocked	
ICM(Infotainment Control Module)	( 2 )	Abnormal
	ICM-1A5C Communication with bluetooth phone module (BPM) Signal missing. ICM-E003 Configuration fault. Faulty configuration	
BPM(Bluetooth phone module)	( 1 )	Abnormal
	BPM-1105 Control module Configuration fault	
Normal	( 4 )	
ABS(Anti-lock Braking System)		Normal
SWM(Steering wheel module)		Normal
EPS(Electronic Power Steering)		Normal
IAM(Integrated Audio Module)		Normal
